DETAILED ACTION

Allowable Subject Matter

1. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
2. Claims 1-15 are allowed.
3. The following is an examiner's statement of reasons for allowance: The examiner was unable to find prior art that showed the limitations discussed in the claims, specifically, time multiplexing a plurality of bitstreams which are decoded by a single decoder and also synchronizing the decoding with the display state (i.e. the refresh rate and film format (interlaced/progressive)). The examiner considered the art in his own search as well as the art by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
